NEW TRIAL

Wanted by Men Convicted of Coffey Murder.

Four Affidavits Filed in Support of Claim That Juror Was Disabled.

The attorneys for the defense on Wednesday made a motion and filed their reasons for a new trial in the case of John Woodruff and Francis Drake, the men under life sentences for the murder of officer Robt. H. Coffey at Empire during the mining troubles in October, 1901.

Four affidavits were filed in support of the claim that Mr. Geo. W. Embry, one of the jurors in the case, was disabled by reason of illness. It is alleged that some of the witnesses remained in the court room and heard a portion of the testimony although a rule had been established barring them from listening to the evidence of other witnesses.

It is further claimed that the Commonwealth was allowed to introduce testimony of an improper character, and that the verdict was contrary to the law and evidence in the case. The case will be argued this morning.

The cases of Guy Reynolds, Jim Merica and John Black, col., under indictment for the same offense, will be continued until the June term of court, as court will adjourn tomorrow.

In the suit of John Bell against J. P. Thompson a new trial was granted.

LOST BOTH LEGS.

Feet Frosted and Amputation of Limbs Necessary.

During the last severe spell of weather Lula McCoy, a 15-year-old colored girl living a few miles south of town, got her feet badly frost bitten. She was removed to the poorhouse shortly afterward, where she has been cared for by the county physician. Her injuries refused to yield to treatment, however, and fearing blood poisoning, it was decided to perform an operation. On Wednesday Dr. Jackson, Sargent and McDaniel amputated both of her limbs just below the knee. She stood the operation well and the chances for her recovery are now considered good.

BASE BALL LEAGUE

Will Meet in Paducah to Arrange Schedule.

The officers of the base ball league, of which the Hopkinsville club is a member, will meet at Paducah Sunday, when a program for the coming season will be made up. The clubs at Cairo, Ill., and Madisonville have joined the league, and will necessitate the making of a new program. Manager Bassett will represent the Hopkinsville club at the meeting. At a meeting held at Hotel Latham Wednesday this plan was agreed upon.

CALLED OFF

Cadiz Meeting and Planters Will Assemble in Clarksville.

The meeting of the Dark Tobacco Association in Cadiz April 13, has been postponed and another date will be named later. Secretary of Agriculture Wilson will meet the tobacco growers of Kentucky and Tennessee in Clarksville April 20, and all farmers throughout the district are invited to be present.

Mr. Joiner Will Build.

Mr. A. F. Joiner, merchant at Lafayette, has purchased a lot adjoining his present place of business and will at once erect a store house. Koper Brothers, of Lafayette, are the contractors.

SURE WINNER.

Bottom Dropped Out of the Opposition to Bush.

Will Carry Every County in the District and Win By 2,000 Votes.

It is all over but the voting, the counting and the shouting.

That Charlie Bush will be the next nominee for Circuit Judge is as sure as any future event can be.

The only possible danger is in the over-confidence of his friends who regard his race already won.

There is not the shadow of a doubt but that Christian county will give him 1500 majority, and it may go to 1800.

The canvass in South Christian this week has demonstrated that in no district in the county, excepting Pembroke, is the opposition formidable.

Polls are coming in from Southern precincts and in the entire Southern half of the county there are only 92 votes known to be against Bush, and the most liberal estimate possible will not give more than 150 anti-Bush votes.

At Beverly Monday there were about 35 voters present and only two were against Bush. At Howell that night a large crowd was present and it was six to one for Bush.

At Longview Tuesday the crowd present was three to one for Bush and not a dozen men in the district are known to be against him. At Gordonfield that night out of 24 voters present all but four were for Bush, and only eight voters are against him in the entire district.

At Pembroke there were about 60 voters present and at least two-thirds of them were for Bush. At Fairview Wednesday night if there was a man in the crowd against him, he did not make himself known.

The speaking yesterday and last night was at Casky and Perry's School House, from which no reports have been received, except that the crowd at Casky was small.

The future speaking appointments are in another column.

There will be a night speech at the Court House Monday night, as the city people are anxious to hear the joint discussion.

In Other Counties.

Hon. J. H. Coleman, of Murray, was in town a few hours yesterday on his way home from Louisville. He reports Bush constantly gaining strength in Calloway county and his friends are now claiming that that county will give him 300 majority. A bet of \$25 that both of the Murray precincts will go for Bush, offered by a Bush man, has found no takers.

Latest advices from Lyon county are of the most encouraging character. Bush made the county sure for him by his recent canvass and it is now only a question of majority. He will spend several more days there the third week in April and his friends promise him at least 200 majority.

Trigg county has not been thoroughly canvassed yet, but Bush is making constant inroads on his opponent. The canvass will be resumed there on the 13th for a week or more, and the county is confidently expected to give Bush a majority.

Bush will come to Christian county with a majority and his majority in the district will be a landslide. It is the most one-sided race ever seen in Christian county. Nothing but a political revolution can keep Bush from winning by a majority that will not fall short of 2,000 votes in the district.

SICK ONLY TWO DAYS

Victim of Pneumonia Passes Away After Brief Illness.

Mr. John C. Allen died Wednesday night at his home on O'Neill avenue, after an illness of only five days, of typhoid pneumonia. He was 53 years old and moved to Hopkinsville several years ago from Old Bainbridge, where he had been engaged in the mercantile business. He is survived by a widow and five children. The remains were interred in the Cavanaugh burying ground, near Sinking Fork, yesterday afternoon.

Mr. Walter Wallace Pugh and Miss Maud Emma Riddle, of near Carl, were married in the County Clerk's office Wednesday morning. Judge Fowler performed the ceremony. The couple returned to their home in the afternoon.

The Fiscal Court will meet next Monday and a proposition to appropriate something to aid the St. Louis fair exhibit will come up.

THE WEED.

Heavy Receipts Both Loose and in Hogsheads.

R. M. Wooldridge & Co., had another heavy sale of the weed this week and prices were fully up to those of last week. Tobacco from all over this and adjoining counties made up the sales. Much of the weed disposed of was very common goods, but some medium to good leaf was sold. Hogshead receipts during the past week have been heavy and continue to improve with each day. About one hundred hogsheads were sold on the breaks. Bids were small. Prices remain about the same as those reported last week.

Three New Deacons.

Messrs. W. H. Harrison, W. T. Tandy and F. P. Renshaw were elected deacons of the Baptist church Wednesday night.

TRICK PHOTOGRAPHY.

Production of Moving Pictures Which
Mystify Many Persons.

The biograph having depicted
most things in the world of fact, has
now found its way into the realm of
fiction.

It has become a juggler, or, as it
might prefer to call itself, an "illus-
ionist," and the uncanny feats it
performs will soon put its more hu-
man competitors to shame.

It commences its performance, says
the London Mail, by showing on the
white screen two men seated at a
small table. They seem to be carry-
ing on an excited conversation, but
after some discussion agree to make a
wager on the cause of the dispute.
Then each takes from his waistcoat
pocket a tiny doll, dressed like a
boxer ready for a champion match.
The dolls are placed on the table, im-
mediately "come to life," and com-
mence sparring in the most scientific
manner. The two Gallies applaud
the Lilliputian pugilists as they fight
vigorously in a space that might be
covered by a dinner plate and when at
last a five grain glove inflicts the
"knockout" blow on a head that is
smaller than an early green pea the
conqueror and the conquered are
picked up and ignominiously re-
placed in the waistcoat pockets of
their owners.

This clever effect, the manager of
the biograph company explained, is
obtained by superimposing two films
which are exposed separately. First
the two men seated at the table act
their part of the performance in front
of the camera, and then another bi-
ograph photograph is taken of a box-
ing match, and the two rolls of film
are then skillfully placed together.
The difference in the size of the box-
ers, and the unlikeliness is accounted
for by the fact that the latter are
placed much nearer to the camera
than the former.

But even more startling illus-
trations than this can be produced. For in-
stance, the biograph throws upon the
screen a picture of a headless man
standing by a huge egg, from which
one might expect a healthy young
man to emerge. The devastated man
cracks the egg with a mallet and dis-
closes his missing head inside.

The face smile recognition, and al-
lows the hands to take a few hundred
ordinary-sized eggs from its mouth,
for no particular reason except to
show that it is capable of further mir-
acles.

Then it looks longingly for-
ward the neck and shoulders from
which it has been cut, and is finally
lifted into its place. The complete
man then bows to the audience and
disappears. It spoils a good illusion
to describe too fully its inner myster-
ies; but it may be hinted that this ef-
fect is obtained by the judicious use
of black velvet curtains. Black vel-
vet, in fact, is the material from which
the modern biograph magician shapes
his "invisible clock," and the gam-
ut is quite as effective as the one
the prince in Andersen's fairy tale
wore when he set out to discover the
wicked doings of the witch.

"The Prisoner's Dream" is the
name of another piece of biographic
juggling. The prisoner is shown in
his cell asleep. On the forbidding
stone wall mysteriously outlined figures ap-
pear. Gradually they become more
and more sharply defined, though the
wall can still be seen through the sub-
stanceless forms. One of the figures
is recognized as that of the sleeping
prisoner, the other is a girl.

There is a quarrel, the flash of a
weapon, and the girl falls limply to
the ground as the "real" prisoner
starts from his sleep and stares wildly
at the dream picture of himself and
his victim. The vision fades away,
and in its place the ghastly face of the
girl floats across the wall.

The subject is somewhat morbid,
but as an example of trick photog-
raphy it is an extremely clever piece
work. The result is obtained, as in
the case of the boxers, by the com-
bination of two films.

All the scenes are acted in a
studio illuminated by what is perhaps
the most unique electric-lighting ap-
paratus in London—how effective
can be judged when it is said that
each of the thousands that compose a
biograph moving picture only re-
ceives about one-fourth-hundredth part
of a second exposure.

Actors of considerable ability are
required, for it is by no means an
easy matter to tell a story entirely in
pantomime so that every one can
clearly catch the meaning, and care-
ful rehearsal is generally necessary be-
fore the actual photograph is taken.

The Attorney's Way.

There are some magnificent mothers in the world to whom
maternity gives an added charm, a greater strength. But how few
these mothers when compared with the multitude of women who are
robbed of charm, weakened and broken down by the burdens of
maternity. Motherhood is the highest function of women, and
nature meant it to confer the highest joy. It increases the
strength and gives great muscular elasticity, making the baby's
advent practically painless.

"I had indigestion so bad last winter, while expecting to become a mother,"
writes Mrs. T. H. Timmich, of Yorkville, Ill. (Box 189), "that I could not eat
anything without it distressed me terribly. I took five bottles of 'Favorite
Prescription' and three of 'Golden Medical Discovery' and went through
with much comfort, and when baby came had nothing to suffer as compared
with other times. It must be known that my case was a very remarkable one,
not being overstrong and having had four children within less than three
years. I was so weak and run-down I could hardly drag around. You must
judge how well I am now, being left entirely alone with five children, of whom
the oldest is four years, and can do all my work. I am happy, indeed, for I
love children and do not care how many I have if I can be well."

SHOULD READ ALOUD.
The Old-Time Practice Valuable from Educational Standpoint.
Reading aloud well is an accomplishment ranking next to music as a means of entertainment at home and in the family circle. In a past generation, says the Milwaukee Journal, the long winter evenings were looked forward to with pleasing anticipations which were realized when they were chiefly spent at home, and going to parties was the exception. The father, mother and children all gathered in the common living room, and one read aloud while others busied themselves with some hand-work, and all, save very small ones, who had an early bedtime, listened with attention and interest. There is much talk just now about the study of child nature. It would astonish some of these students could they know how much of good literature intended for mature minds was comprehended and appreciated by children when they were given a chance to become acquainted with it. "Paradise Lost," Scott's poems, and other similar reading, have been a strong factor in forming a good taste for literature, when heard by children from seven to ten years of age. Such children have of their own volition learned large parts of "The Lady of the Lake," "The Lay of the Last Minstrel," and many many small poems of great merit. One lady, recently dead, took pleasure, when long past her eightieth year, in repeating gems of poetry learned in her early girlhood.

There is too much light and trashy reading for children. They are left to much to themselves in choice of books. Parents are too apt to be engrossed in their own pursuits to give their children the proper training in reading aloud at home. Too much dependence is placed on their being taught at school. At school there is not sufficient time to give each child all the exercise in this that is needed. Reading aloud should be a home habit. One principal of a school has recognized this, and is making an effort to encourage children in the habit. He gives a credit to the children for home reading aloud, and asks a report from the parents, and also gives the pupil an opportunity to tell to his class the things he has read. The responsibility of a child's education is not wholly the teacher's. The teacher simply to supplement the efforts of the parent, to supply what it is inconvenient or impossible for the parent to give. Schools are not intended to take a parent's place.

STEEL ENGRAVINGS.
An Early One Would Be Worth a Fortune to Its Finder.
Here is a prize for library-hunting. When and where did the art of steel engraving originate? Obviously it is an important art, without which it would be impossible to produce 10,000 wholly uniform engravings. Of paper money it is necessary to print millions of pieces, each kind to be absolutely uniform, and of postage stamps, those art works in miniature, the call is for many thousands of millions. Most of the postage stamps bearing the portrait of Queen Victoria were derived from one plate made in 1840, says a Boston publication. All the world knows that Jacob Perkins, he of Newburyport, Boston, Philadelphia, and England, invented this particular process, and official records show that his invention was substantially complete in 1809. It is known also that in 1809 he had been at work upon his process for many years. He appears to have taken out a patent bearing upon this invention before 1800. His object was to print bank notes not easily forged, and incidentally he seems to have become the father of steel engraving, not the least of nineteenth century achievements. As early as 1809 he undertook to introduce his art in England, whence it spread all over the continent. But most of the records bearing upon the origin of steel engraving have disappeared, and an example of the art produced before 1830 might be worth its weight in diamonds.

French Colonies.
France spends annually for her colonies a little more than \$25,000,000, while the aggregate of its business with them, export and import, is but \$62,000,000, and but 4,600 a year emigrate to French colonies. But France has not been the least successful country in building a colonial empire, for Germany's geographically large possessions cost more than the aggregate of the exports and imports from them.

LOOK HERE FOR IT.
It is What the Reader Has Long Sought.
People will read advertisements about cures made by medicine. As they read they wonder if the statements are true. If true, was the relief temporary or permanent? Read this case about Doan's Kidney Pills.
W. H. Clark, of Bennett street, accountant at the Bloch Bros. Tobacco Works, Wheeling, W. Va., says: "If my back aches I know what will cure it. Doan's Kidney Pills. They are the best remedy I ever came across. For months I was plagued with backache, not sharp pains, but a dull aching all the time, that made me feel miserable. I got medicine on different occasions from doctors and it seemed to relieve me for the time, but it was soon as bad as ever. Hearing of Doan's Kidney Pills, I took a course of the treatment. They cured me, and that cure has been lasting. I will corroborate this in personal interview or in reply to any communication mailed to me."

In a granite quarry in Barre, Vt., there is a derrick which lifts weights of 100 tons. The breaking strain is 170 tons; with extra rigging it can be made to lift weights of 200 tons. The job is of Oregon pine, ninety-three feet long, two feet five inches in diameter.

SEVERE ATTACK OF GRIP
Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shorthville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose. But it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." Danger of Colds and Grip.
The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, the Chamberlain's Cough Remedy taken at the first warning will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by C. K. Wily, druggist.

ELIGIBILITY OPINION.

'If a political party fails to nominate a candidate who is eligible to office that party must bear the burden.'

There are rumblings of a coming anti-machine storm all over the State. Kentucky will not submit to boss rule. Bear that in mind.

The Governor has fixed Friday, May 15, for the hanging of William McCarty, of Lexington, and John Black, col., of Louisville.

James W. Bess, charged with the murder of Martha Martin, was given a death sentence at Lexington Wednesday.

H. H. Henninger, of Monticello, Ky., who has for several months been a candidate for the Democratic nomination for State Treasurer, has withdrawn from the race.

Jim Howard's third trial will begin at Frankfort next week and with the new evidence now at hand, it is difficult to see how he can escape the death sentence again.

Mr. E. B. Bourland, of Madisonville, has been chosen representative of Kentucky University in the State intercollegiate oratorical contest, to be held in Lexington on April 10.

Capt. John Russell, who was appointed Collector of Customs at Natchez, Miss., is a one armed Confederate veteran and a Democrat. L. J. Winston, who resigned the office, is a colored attorney.

Judge Bush is one of a few men who is complimented with the title of "Judge" who has never held office. This is because the people who know him regard him as a judge of the law.—Callaway Times.

Wm. Blake's "Illustrations of the Book of Job" was sold by auction in London for \$28,000. The volume was published in 1825, contains the 43 original wood impressions of engravings and original designs in colors.

Those speaking appointments of Gov. Beckham have not been announced and may never be. Judge Breckinridge and Col. Hendrick should ask a division of time if they are announced.

The \$3,000,000 appropriated by Congress for the relief of the Philippine government was distributed at Subtreasury Tuesday. Payment was made in gold certificates of large denominations.

Thousands of workmen in many cities went out on a strike Wednesday. Demands for increase of wages and recognition of the union were the chief causes. The strike involves 20,000 men in New York and 10,000 in the Indiana coal mines.

The attorneys of Jim Howard are trying to get a change of venue to some other county besides Frankfort, where court begins Monday. The movement is to secure delay and let Powers be tried first in May.

That Tired Feeling

Is a Common Spring Trouble. It's a sign that the blood is deficient in vitality, just as pimples and other eruptions are signs that the blood is impure.

It's a warning, too, which only the hazards fail to heed.

Hood's Sarsaparilla and Pills

Renore it, give new life, new courage, strength and animation.

They cleanse the blood and clear the complexion.

Accept no substitute.

"I felt tired all the time and could not sleep. After taking Hood's Sarsaparilla a while I could sleep well and the tired feeling had gone. This great medicine has also cured me of eczema." Mrs. C. M. Burr, Glend, Conn.

Hood's Sarsaparilla promises to cure, and keeps the promise.

At the April term of the Franklin circuit court, to begin next week, the validity of several sections of the new revenue law of the State will be raised in suits already filed. Other suits to recover taxes from the meat packers and tobacco manufacturers will be filed. One of the most important questions raised is that the assessment of a license tax against the railroad companies having only terminal facilities in the State.

Editor Charlie Morehead, of the Princeton Banner, has recently made a great improvement in his paper. The form has been changed and it seems to have taken on new life, editorially and otherwise. The Banner is one of the oldest papers in this end of the State and it has survived many vicissitudes in the newspaper business in Princeton. May it continue to improve with age.

A conference of Col. Hendrick's friends from every district but one in the State was held at Louisville Wednesday afternoon. About fifty of his leading supporters were present and arrangements were made to thoroughly organize the State. Col. Hendrick is gaining votes all over the State and will grow stronger every day.

The mask has been thrown off and the "headquarters" of the Democratic Committee have been removed to Frankfort, with one of Beckham's appointees in charge of the details of the approaching primary. In the meantime who is to earn the salary of Percy Haley?

The President has issued a general amnesty order, which will affect more than 100 United States prisoners in the new United States Penitentiary at Atlanta, Ga. They were transferred in 1902 from Ohio and New York, and the order restores their "good time," which they lost by reason of the transfer.

The President started from Washington Wednesday on his tour of the West. A special train of six cars will carry the party on the 14,000-mile trip. More than two months will be required for the journey.

FRANK SPEED II.

City Purchases Another Fine Horse for Fire Department.

Dr. J. B. Jackson, a member of the city purchasing committee, appointed to buy another horse for the fire department in place of Frank Speed, purchased a fine animal of O. L. Coffman, at Slaughter'sville. The price was \$200. The new horse is a good match to Dixie, the other animal used by the fire company. He is now being trained for his duties.

Campbell's Cave is Open.

Campbell's Cave is now open for the reception of visitors. This is an exceedingly popular resort during the spring and summer season, being well patronized from six to eight months of the year. The same old price of admission—10 cents—will prevail again.

REASON WHY

The Court of Appeals Held Back Opinion.

Five of the Seven Judges Believe Beckham Intelligible For Re-election.

Mt. Sterling, Ky., March 30.—Consternation was thrown into Beckham's camp this morning when it became known that the Court of Appeals, in arguing the question of the Governor's eligibility, stood five to two against the Governor.

This information reached the ears of Beckham's crowd at the meeting held in Frankfort yesterday, and the Governor is fearful lest he lose his following.

A heated discussion occurred in the meeting over a change of closing dates for entries, and it the change is made the primary will be called off. "A straight tip" from a politician close to the throne has it today that a convention will be called and held in June in Lexington. Knowing the situation as it now stands, Beckham is considered by many as certain to quit the race within the next two weeks regardless of all denials.

The knowledge of the Appellate Court standing five to two that Beckham is intelligible completely paralyzed the followers of the Governor.

The "machine" dropped Hubert Vreeland, the Louisville candidate for Commissioner of Agriculture, and has taken up Hedger, of Scott county, within the past few hours.

LOSING EVERYWHERE.

Two More Strong Papers Turn Cripps Loose.

Frankfort, Ky., March 30.—The removal of the Democratic headquarters from Mt. Sterling to Frankfort today was signalized by the "bolting" of two more heretofore Beckham organs, namely, the Bowling Green Times and the Lebanon Enterprise, leading Democratic journals in their respective localities. Both papers refuse Gov. Beckham their continued support because of the question of eligibility, and unite in the demand that he withdraw from the race if he be solicitous of the party's welfare.

The news that the papers had refused to longer support the machine was received with manifestation of joy at the headquarters of Col. Hendrick, and his supporters are predicting that the "journalistic bolt" has but commenced. This makes five papers to change front in the gubernatorial fight since last Friday.

Confessions of a Priest.

Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and \$1.00 bottles guaranteed by R. C. Hardwick. Trial bottles free.

Get Your Census Blanks.

The census blanks for the enumeration of children of school age were received last week and many of them have been delivered to the trustees of the various school districts. Trustees who have not received their blanks will please call or send for them as soon as convenient. The list should be taken as early in April as possible and it must be returned to me by May 1st. I mailed last week to the Chairman of every school district a letter of instruction in regard to the census enumeration and trust that the list may be correct in every particular and returned at the required time. It will very materially assist the census taker if the parents or guardians will have the list ready when called for—the name and date of birth of the children who will on July 1, 1903, be between the ages of six and twenty years.

Tired Out

"I was very poorly and could hardly get out of the house. I was tired out all the time. Then I tried Ayer's Sarsaparilla, and it only took two bottles to make me feel perfectly well." — Mrs. N. S. Swinney, Princeton, Mo.

Tired when you go to bed, tired when you get up, tired all the time. Why? Your blood is impure, that's the reason. You are living on the border line of nerve exhaustion. Take Ayer's Sarsaparilla and be quickly cured.

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows all about it and can tell you how to get it. Follow his advice and you will be cured.

DEATH OF H. J. WILLIAMS.

Another Pembroke Citizen Passes Away—Summons Sudden.

Mr. Henry J. Williams, a bachelor, aged about 65 years, died rather suddenly Tuesday afternoon at his home in Pembroke. He was a carpenter and worked a portion of the morning. He complained of not feeling well and went home. He continued to grow worse and died in a few hours. Death was due to heart disease. He was a good citizen and leaves many friends.

PURIFY THE BLOOD

THE POPULAR COUNTY CLERK OF THE CITY OF SAN FRANCISCO.

HON. WILLIAM A. DEANE, OF SAN FRANCISCO.

Hon. Wm. A. Deane, Clerk of the city and county of San Francisco, was Chief Deputy in the office of his predecessor during the latter part of his term. He is a native son, having been born and raised in the city of San Francisco, and has for many years been prominently identified with the Order of Native Sons of the Golden West, as well as other fraternal organizations. He is an exceptionally popular young man, socially and politically able, as evidenced by the ballot cast at the late election, he having defeated his opponent for the office of County Clerk by nearly 8,000 votes.

In a letter written January 25, 1899, from San Francisco, to Dr. Hartman, Mr. Deane has the following to say of Peruna:

The Peruna Medicine Co., Columbus, Ohio.

Gentlemen:—I would not be without Peruna, as I have found it to be the best remedy for catarrhal complaints that I have ever used.

I have tried most all of the so-called catarrhal remedies advertised, and can conscientiously say that of all the remedies for catarrhal complaints recommended to me none have been so beneficial as Peruna.—WILLIAM A. DEANE.

CATARRH assumes different phases in different seasons of the year. It is therefore, four-fold well-marked varieties of catarrh. Winter catarrh, spring catarrh, summer catarrh, and autumn catarrh. In each of these varieties different organs seem to be the principal seat of the catarrh.

In the winter the catarrh is more frequent in the head, throat and respiratory

organs. In the spring the catarrh seems to chiefly affect the stomach and nervous system. In the summer the bowels suffer the most; while in the autumn the liver and kidneys seem to be particularly subject to the ravages of catarrh.

Of course it is not meant by this that catarrh is absolutely confined to these parts of the body during the season to which we have assigned them. Catarrh may attack any organ in any season of the year, but the liabilities are so much greater for catarrh to attack particular organs in certain seasons that these four distinct varieties have become recognized.

Mr. Robert Douglas, Homoeopathic Specialist, cor. 6th and 9th Sts., N. Y., Washington, D. C., in a recent letter to the Peruna Medicine Co., of Columbus, O., has the following to say concerning their noted catarrh remedy, Peruna:

"I have been a practicing physician for some years, during which time I have administered Peruna to a number of my patients for colds, catarrh and general debility with great benefit to them. I have paid particular attention to its effects, and I have absolute confidence in its curative qualities, and have no hesitation in making it a most emphatic endorsement."

Hon. Clement M. Hammond is one of the best known newspaper men in New York City. He was for years editor of one of the principal papers in Hartford, Conn., later was a prominently connected with the New York Recorder and New York World. He has traveled extensively and is known all over the United States for his talent as a newspaper man. Writing to The Peruna Medicine Co., he says:

"For about six years I have had trouble every fall and winter with my voice. At times it has extended to my bronchial tubes and lungs. I think all this trouble came from whooping cough, which I had when I was about twenty years old, and which left me with catarrh. Since I have taken Peruna, my voice has been clearer than in over two years, all of which I am willing to testify to." Mr. Hammond's address is "The Arlington," 64 Montague street, Brooklyn, N. Y.

Peruna is an internal remedy—a scientific remedy for catarrh. It cures catarrh wherever located. It cures catarrh of the bowels, of the bladder, of the prostate, of the lungs, of the throat, of the nose, of the ears, of the eyes, of the skin, of the mucous membranes, of the entire system.

No remedy can possibly supply the place of Peruna. It is not a substitute for any other remedy. There is no substitute for this catarrh medicine. Take no other remedy. Address The Peruna Medicine Co., Columbus, Ohio.

SPIRAL TOWER ACT

One of the Features of the Odd
Fellows' Carnival.

The coming carnival to be given by the Odd Fellows will abound with acts, the best that money can procure. The chairman of the committee on amusements announces another headliner in Achilles Philion, acknowledged the premier equilibrist of the world. He has been engaged to put on his spiral tower act, which has been an electrifying success in both hemispheres. It is the veritable pinnacle of perilous performances--the apex of equilibrium--the limit of human skill and daring. Upon a slender spiral path only 14 inches wide, after reaching far upward, 60 feet above his starting place, he winds his wriggling way upon a wooden ball, propping it with the soles of his feet, from the topmost pinnacle of the tower extends outward cable only three inches in diameter, out this upon the irregularly revolving ball he moves and at the most dizzy heights balances upon the rotating sphere without support of any kind but his own indomitable nerve. Philion moves on the wooden ball where no one else would dare to crawl. One second of forgetfulness or nervousness would mean a fearful end for the fearless man. It is beyond doubt and all question the most hazardous journey ever taken by human. Spiritualists have said he is supported by invisible hands. At night he performs surrounded by an explosion of fireworks that make the act "an electrifying exhibition of equivoque extraordinary."

SWELL COSTUMES.

What The Eagle Said of "Other People's Money" Company.

In a recent issue the Wichita, Kansas, Daily Eagle said in part: "Other People's Money" Company played to an enthusiastic audience at the Crawford Theatre last evening. The Company is exceedingly well balanced and presents a piece that is full of excellent comedy and fun. The plot is intricate enough to make it very interesting and the humorous situations are many.

"The costumes worn by all the ladies of the cast were very stylish and elegant, but those worn by Miss May Sargent created quite a stir, not only with the ladies in the audience but with the gentlemen present, as well. Her gowns are all most elaborate creations, but her most striking one is an evening gown worn in the last act. It has been months since the costumes worn in a play created the stunning effect that Daisy May Sargent did last evening. In justice to the young lady, it is due her to say that she wears them well and is a finished actress. She is well supported and the individual work of the members of her company is most excellent." This attraction will be seen at Holland's Opera House, Friday night, April 3.

ABOUT PAINTING!

SPRING TIME Reminds Us Of PAINTING

Nature does most of her painting at this season. She prefers green, but if you like some other color better we guarantee we've got it. We've got it ready-mixed and the lead and oil for you to mix it. In ready-mixed we sell the paint that has been sold here for 26 years and never a single complaint made of it. That's the

Sherwin & Williams Company's Paint.

It covers more surface than any other paint and lasts longer and looks better. That's why it is still sold here in such large quantities. Half car load a year. Have cheaper paints if that's what you are looking for. Bound to please you in one way or the other.

HOPKINSVILLE, KENTUCKY.

CAN YOU AFFORD

?

To put your handsome "RADIANT HOME" HEATER out in the coal house for the summer, take risk of breakage and rust, and pay inexperienced help to haul clean and set it up again next fall? Now think about this as a money-saver and satisfactory arrangement and have us send for your stove. We are responsible for all breakage and keep them fully insured while in storage. The plated rimming is detached, every piece carefully wrapped, your name and date plainly marked on tags securely fastened to the stove and to each separate part, and an itemized receipt is sent to you showing what we are to return, amount of charges and repairs, if any are required. Notify us when you want the stove returned and we replace it already for fire, black parts well polished, plated work highly burnished and looking just like new. Our men are careful and make no noise or dirt in removing or replacing stoves. That the charges are fair and the service satisfactory is amply shown in the fact that those who have stored stoves with us for years are now giving us their business for this year. Think this over and ask your neighbor what she thinks about it. We only mentioned "Radiant Home," but for storage any name will do. We take all that offer, but this is a good place to remind you that 5 years service has not yet made demand for one piece of repair for "Radiant Home" Stoves. You know the fire pots are fully guaranteed for five years.
